

**AP Psychology
Research Study Presentation**

Project – 50 Points Total (U)

Miller
Due: _____

Student: _____

Study (Name and Authors): _____

Introduction: Summarize a classic study in psychology and present your findings.

Source: Hock, Roger. Forty Studies That Changed Psychology (5th): Prentice Hall
ISBN# 0-13-114729-3

What Do We Do?

1. Create a presentation about the research study you were assigned that highlights and explains the information you gathered about the study. Be thorough, but BE CONCISE!
2. Your presentation must be created in Voicethread (www.voicethread.com) and contain the following...
 - A Title Slide containing the full name of your study and at least the last names of each of the authors
 - Between 3 and 5 pictures/slides (including a Title Slide)
 - Each picture/slide should be representative of the part of the study you are describing (for instance, if you are reporting the results of the study, use a table to show the data)
 - Make sure you have concisely described the **Reason, Method, Results**, and **Discussion** of the study

*** BE CREATIVE and INFORMATIVE! ***

GRADING RUBRIC
